Notes:
New part numbers, changed part numbers, price changes, part number description changes, etc. are highlighted in yellow.
Factory Options must be purchased with a base platform and be installed at the factory. Field Upgrades can be purchased separately and/or installed in the field.

Serviceable Items Summary

Service list price is calculated as % of F5 product list price.
Base platforms and software add-on's (F5-ADD part numbers) require the purchase of a separate service part number to receive support.
Hardware options part numbers (Factory Option F5-OPT and Field Upgrade F5-UPG) do not require the purchase of a separate service part number to receive support.
Hardware options will receive support as long as a valid support agreement is in place for the corresponding base platform that it is installed on.
There is a 1-to-1 relationship between serviceable product part numbers and service partners. When quoting, there must be a service line item for each serviceable product part number.

Professional Services Summary

All installation/implementation SKUs will be delivered during standard hours; 8:00am - 6:00pm; if after-hours/weekend work is required, please quote overtime SKU F5-INST-OT.
All installation/implementation SKUs will be delivered at a single location on consecutive business days; includes one round-trip travel plus travel expenses for all 5 day or less offerings. (Two round-trips are allowed for 7 day offerings.)
All installation/implementation SKUs encompass only predefined deliverables; contact your F5 PS Sales Representative for more information.
All product migrations from F5 or 3rd-party hardware must be scoped and cannot be performed with a installation/implementation SKU.
